THE BEEBE PLAINS SCRAP.

Quarry Workers Hall Mitchell's Opinion as Victory Over Paving Cutters.

The March number of The Quarry Workers' Journal, which was issued from the office of the secretary of this city today, contains among other things the announcement of a victory for the quarry workers in a contention with opinion by John Mitchell. The contention grew out of the ineffectual efforts of the Quarry Workers' union to induce the paving cutters at Beebe Plains to cease work on granite which had been declared "unfair." Delegate P. F. McCarthy of the Quarry Workers' union introduced a resolution at the national A. F. of L. convention at Denver recently to suspend the Paving Cutters' union from the American Federation "until in ceases giving aid and comfort to an employers' association whose watchword is Canada for Canadians and disruption of the American Federation of Labor."

At that time the suggestion was made by the chairman of the adjustment committee that the disputants refer the matter to a referee to be selected by President Gompers. This proposition was agreed to, and President Gompers appointed James Duncan, first vice-president of the A. F. of L., Secretary of the Paving Cutters' union objected to the appointment, and John Mitchell, second vice-president was then appointed, agreeably to both parties.

Mr. Mitchell reviews the case at length and then presents the following recommendations:

"Between now and April 30th, the late upon which the contract of the Paving Cutters expires, the members of the Paving Cutters Union employed at the quarries of the firms named herein, and the officers of the local and international unions, parties to this submission, make every possible effort to have the quarry workers employed by Messrs. McIntosh, Brodie and Norton Brothers become members of the Quarry Workers International Union of North America; and

Whether they fail or succeed in their efforts to organize as members of the Quarry Workers Union the men now employed as quarrymen, the officers and members of the Paving Cutters' Union prior to May 1st, notify the firms in question that they—the firms—will recognize the jurisdiction of the Quarry Workers' Union over men employed as quarry workers; and

"In the future contracts or agreements be made with the two organizations acting together or with both of them acting separately."

This opinion by Mr. Mitchell means that the paving cutters shall not make agreements with the firms until the Quarry Workers' Union and the Granite Cutters' Union are recognized.

WILLIAMSTOWN.

The annual enumeration of children of school age in school district No. 2, Brattleboro, shows that there are 606 such children in the district, 470 of whom are boys and 499 are girls. The number in school district No. 2 this year is somewhat less than last year's list, but the loss is largely accounted for by the excess of those who became 18 years old and went out of the list over those who became five and entered the list.

Regular meeting of Hiawatha Lodge, I. O. O. F., Thursday evening at 7 o'clock. Work, second and third degrees. Per order N. G.

The Daylight Store

MANY USEFUL HINTS

Could be gathered by a visit to our store and a look over our stock, as you can easily get here a general view of the entire market. Many ladies overlook the opportunities lost, by not keeping constantly supplied with the latest garment news. They wait until the demand is at their door before taking steps to meet it. This is a mistake. Come in and inspect our new line of Spring Suits and Skirts.

LADIES' SEPARATE SKIRTS.

We have just received another invoice of new Spring Skirts in blacks and colors. These are the popular M. & C. make of Skirts, and those who have had this Skirt know that the fit and make are the best that can be turned out.

We have some extra good numbers in Voils. These are made from the Altman, a Voil which is of a hard twisted long fiber wool, making it especially desirable for service, and it will not stretch or pull like the soft fiber Voil. Then they will not catch the dust like the soft Voils.

These Skirts are made in the latest up-to-date styles, only are much fuller around the bottom than the samples shown. Some are made full circular with taffeta and satin bands, others are finished with self bands.

MISSSES' JUNIOR SUITS.

The Misses' Junior Suit business has got to be almost as great a feature as the Ladies' Department. We have carried a fair line of these Suits each season, but this Spring we have put in a much larger and better line than ever before.

At \$8.75 is a Blue Panama three-piece Suit, consisting of skirt, with a waist jumper effect and a plain, neat tailored coat.

At \$10.00 are some Misses' Junior Suits, made of a good quality mixed goods in stripe effect. Coat is made a gradual cutaway front with coat back, finished with silk on the cuffs and collar. Skirt is made circular flare and buttons up the side, in the sheath effect and finished with buttons.

At \$15.00 and 18.00 are some fine Suits, made up in a fine worsted and panama, and made in the best of style, similar to the best quality ladies' suits.

LADIES' SPRING SUITS.

Nearly every day now brings new Suit models into our department. Never at so early in the season could we show you so many new models and never have we had a season of so large a variety of new, tasty models.

A Suit which we are going to put out is a leader at \$12.00. This is a Suit that is made to sell at \$15.00 and is made of a hard twisted worsted. Coat is made 36 inches, square cut style with large patch pocket style, is lined with a good quality Helden satin. Skirt is full circular gore and finished with braid and buttons.

At \$15.00 and 18.00 are a class of Suits which we are showing in samples, only one of a kind. These are just to take orders from, and are a little different from the stock Suit.

At \$20.00, 25.00 and 30.00 are some Suits which we are showing in samples, only one of a kind. These are just to take orders from, and are a little different from the stock Suit.
